

DeNO_x Skid-Mounted Modular Units

For a Combined Cycle Power Plant

Examples of engineered and fabricated modular system units that arrive ready to "Plug In" to an existing or new SCR DeNO_x System:

- Anhydrous Ammonia Storage/Vaporizer System
- Aqueous Ammonia Storage/Forwarding System
- Ammonia Rail/Truck Tanker Unloading Station (Aqueous & Anhydrous Ammonia)
- Aqueous Ammonia Forward System
- Ammonia Balancing Manifold & Injection Skid
- Ammonia Flow Control Unit
- Other Ammonia-related modules are available

Also available:

- Balance of Plant (BOP) Modules
- Fuel Gas Conditioning Packages

Ask your IFS Sales Engineer for cut-sheets for any of these or other related SCR DeNO_x modules.
