

LNG Processing Packages: Liquefaction & Regasification

Modular - Skid Mounted - Engineered-to-Order - Ready to "Plug-In"

IFS LNG Processing Packages: Liquefaction & Regasification

Integrated Flow Solutions (IFS) specializes in modular, engineered-to-order skid-mounted packages, shipped ready to plug into customer process systems at sites anywhere in the world, including LNG liquefaction and regasification plants and terminals.

We also offer on-site installation assistance, training, commissioning, maintenance and aftermarket parts support.

Liquefaction Packages

NATURAL GAS COMPRESSION

NG Seal/Buffer Gas Conditioning Package

NATURAL GAS TREATMENT

Dew Point Control Package

Dehydration Package

Electric Process Heating Package

PRECOOLING & LIQUEFACTION

Propane Unloading Refrigeration Package

Propane Compressor Package

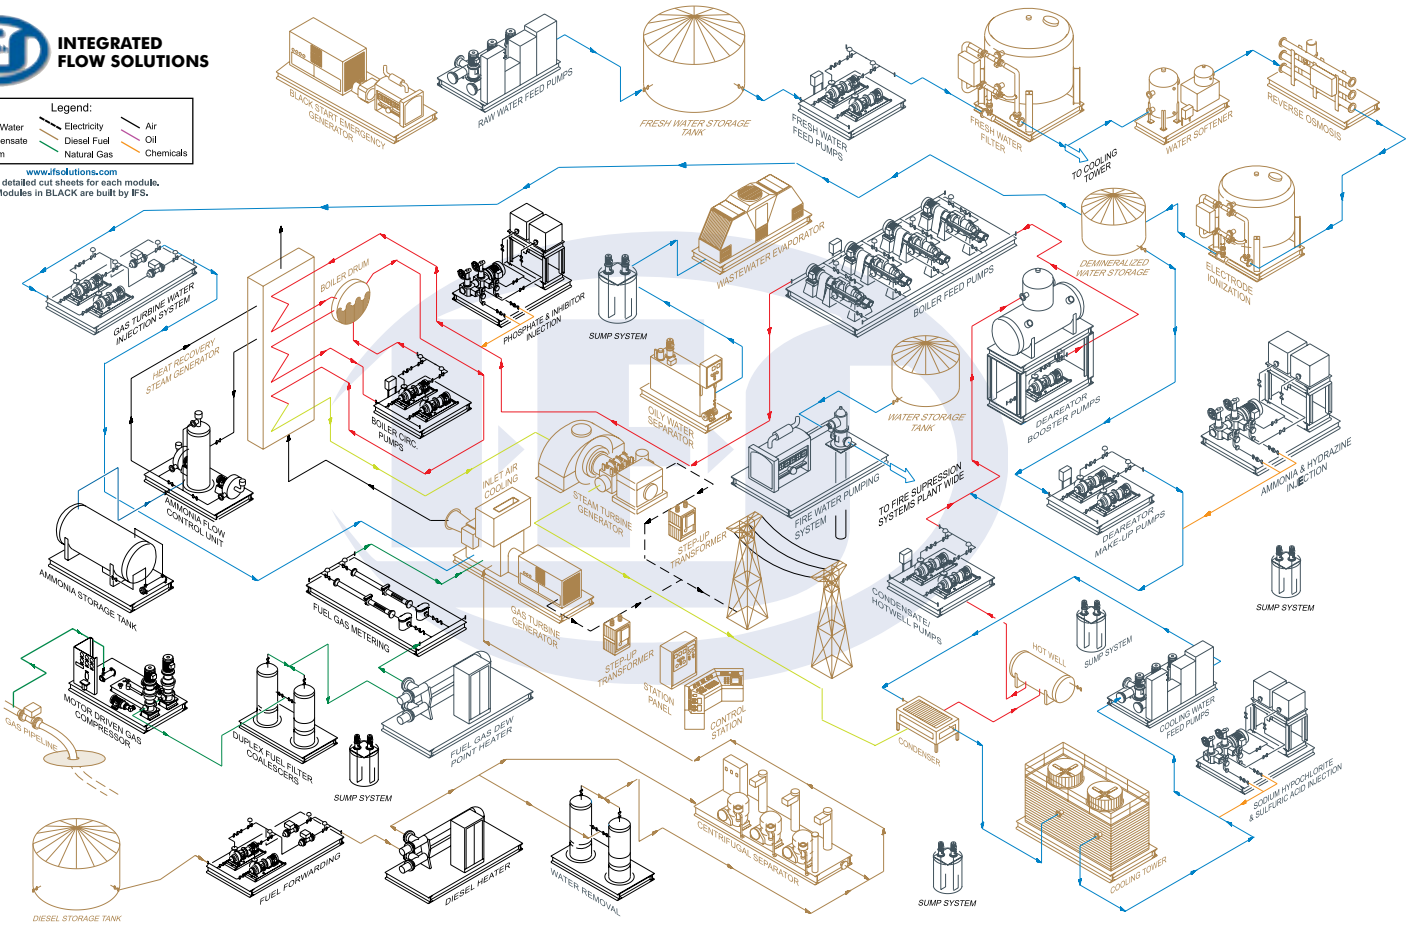

Ethane Unloading Refrigeration Package

Ethane Compressor Package

Methane Vaporization Package

Hot Oil Circulation Package

COMBINED CYCLE POWER PLANT

Liquefaction & Regasification Packages

POWER GENERATION PACKAGES

Natural Gas Treatment

- Fuel Gas Conditioning Package
- Dew Point Control Package
- Dehydration Package
- Electric Process Heating Package
- Duplex Filter Coalescer Package

Balance of Plant (BOP) Packages for Combined & Simple Cycle Power Plants

- Chemical Injection Packages
- Turbine Water Injection System
- Utility Water Booster Pump Package
- Boiler Circulation Pump Package
- Hot Oil Circulation Pump Package
- Open & Closed Sump Package

Booster Compressors

- Motor Driven Gas Compressor Package
- Fuel Packages**
- Fuel Gas Pressure Reduction Package
- Fuel Gas Metering Package
- Liquid Fuel Forwarding Package

- Boiler Feed Pump Package
- Deaerator Booster Pump Package
- Condensate Hotwell Pump Package
- Cooling Water Feed Pump Package
- Firewater Pump Package

NOX Control (Ammonia) Packages

- Aqueous Ammonia Storage & Forwarding System
- Aqueous Ammonia Forwarding Unit
- Anhydrous Ammonia Storage & Vaporizing System

- Ammonia Flow Control Unit
- Ammonia Balancing Manifold & Injection System
- Ammonia Railcar & Truck Unloading Stations
